Virginia Department of Environmental Quality
Mr. Terry Darton, Air Permit Manager
13901 Crown Ct.
Woodbridge, VA 22193

Dear Sir:

I am writing to you as a resident of Alexandria who supports the stack merge initiative at the Mirant power plant. As long as the plant meets applicable air quality and other environmental requirements, I feel that it should remain in operation, and I think the stack merge will help.

I believe the Alexandria government's efforts to close the plant have more to do with real estate development than they do with air quality. I also believe they have other more significant environmental and safety issues to address and could better spend our tax dollars dealing with them.

Sincerely,

A handwritten signature in black ink, appearing to read "William W. Rogalski, Jr.", with a stylized flourish at the end.

William W. Rogalski, Jr.
